To the Honorable Judge Carr,

Thank you in advance for considering the compassionate release of James Wheeler. On behalf of the Outlaws Motorcycle Club, we would like to assure you that the health of James Wheeler is the only thing that's important to us. At 77 years old and in poor health, Mr. Wheeler is not a threat to the community nor will he be engaging in any criminal activity. We want to see Mr. Wheeler at home with his sister and safe from the Covid-19, which as you know, is ravaging our Federal prison system.

Mr. Wheeler will not associate with any members of the Outlaws Motorcycle Club nor will he be associating with any of his former co-defendants.

Additionally, it should be noted that all of Mr. Wheeler's co-defendants that had an association with the Outlaws Motorcycle Club have been released from prison and all but one of them have finished their parole/supervised release. None of them have violated their conditions (and several of them have died).

In closing, we will make certain that Mr. Wheeler has a safe and healthy home with his sister and that he abides by the restrictions of the court.

Thank you,

To the Honorable Judge Carr,

I'm writing on behalf of James Wheeler. James is 77 years old and has spent 17 years in prison. I am very concerned that he will contract the coronavirus. I am asking from the bottom of my heart that you grant Mr. Wheeler his request for compassionate release, or re-sentencing, so he may spend his final years with his loving sister. James is not a threat, nor danger to society and in fact, will be a blessing to his community at large and could use some empathy in these challenging times.

Thank you very much,

To the Honorable Judge Carr,

I am writing on behalf of my close friend and inmate James Wheeler. I have known James for over 21 years. I have always known him to be a generous and compassionate person helping those were in need. I am very concerned that James will contract coronavirus in prison and am asking for leniency on his behalf. I do not believe, at his age and medical condition, that he would survive a bout with the virus.

I am asking that you strongly consider and grant Mr. Wheeler his request for compassionate release, or re-sentencing, so he may spend his final years with his loving sister.

James is not a threat, nor danger to society and in fact, will be a productive member of his community when released and could use some empathy in these challenging times.

Thank you, in advance, for your time and consideration in this important matter.

Sincerely,

Brad Carlson

Honorable Judge Carr,

I am writing this letter in hope that you will consider reevaluating James Wheelers sentencing. My family and I have known James for over 30 years and have nothing but positive thoughts and memories whenever we were together. Our family also knows of Franks troubles with the law and he is presently incarcerated. I also believe in rehabilitation and a second chance for citizens of our great country. I have written Frank on occasions and he has reevaluated his life and has realized that he's put not only himself but his family in a terrible position. That being said he was given a lengthy prison sentence which he has been presently serving as a model inmate and hoping one day to see freedom and redemption. What concerns me the most is James health. With the new world wide pandemic the sentence he is serving could very well turn into a death sentence. My family and I pray and hope we would one day see Frank as a free man again. Please consider early release for a very special friend of our family.

Thank you for taking the time to read this letter,

To the Honorable Judge Carr,

I hope this letter finds you well and healthy.

I've known James Wheeler through the motorcycling community but I developed a close relationship with him almost six years ago when I began reviewing his Ohio and Florida cases.

Mr. Wheeler is now 77 years old and suffering from a variety of health issues. Were he to be released from prison I believe there is zero chance that he will re-offend. Mr. Wheeler intends to live with his older sister and focus on staying healthy.

The Covid-19 pandemic is hitting our Federal prisons particularly hard and the death toll is rising. As you know by now, there's a legitimate question as to the legality of Mr. Wheeler's life sentence and it seems especially cruel to keep him in prison at his age and subject him to the likelihood that he will be infected by the Covid-19 virus.

I thank you in advance for your consideration.

To the Honorable Judge Carr,

I'm writing on behalf of James Wheeler. James has spent 17 years in prison thus far on his sentence. As you know the Corona virus will spread through the prison system like wild fire and inflict its pain on the older inmates. We are very concerned that James will contract the coronavirus. Honorable Judge Carr,

This message is on behalf of James Wheeler whom I've known 9 plus years. James now is in his 70's and vulnerable to the worst affects of the corona virus. Media reports describe minimal sanitizing, PPE and testing within our prison system. If James gets infected with covid 19 he would most probably die within the system. Compassionate release would mean James could quarantine under supervised release with family. I know releasing James to his family is doing the right thing in these unprecedented times.

To the Honorable Judge Carr,

I've known James Wheeler for 25 years and I know that his days of law-breaking are long behind him. Jimmy was always a good man, kind and generous.

Jimmy was never a large-scale criminal and seventeen years is a very long time to spend in prison. Jimmy is 77 years old and plans to live quietly with his sister and keep himself healthy.

Please consider releasing Jimmy so he may spend what little time he has left on this earth safe from the coronavirus.

Sincerely,
